EXPERIENCE

Small Copper Technologies

Jan 2026 – June 2026

- Developed and Deployed full-stack applications using MERN stack with responsive UI.
- Built and optimized REST APIs to improve performance and efficiency .

Excellence Technology

June 2025 – August 2025

- Worked on core JavaScript including DOM manipulation and ES6 features.
- Developed responsive web pages using HTML5, CSS3, and JavaScript.

PROJECTS

HRMS (Human Resource Management System)

Small Copper Technologies

- Developed a full-stack HRMS web application using MongoDB, Express.js, React.js, and Node.js.
- Built employee management features including profile management, attendance tracking, leave requests, and employee records handling.
- Live Demo:** <https://hrms-client-rho.vercel.app/>

Organic Store

Small Copper Technologies

- Developed a full-stack e-commerce grocery platform using the MERN stack.
- Implemented product catalog management, category-based filtering, shopping cart, and secure checkout functionality.
- Developed RESTful APIs with Express.js and MongoDB utilizing **asyncHandler** for centralized asynchronous error handling.
- Live Demo:** <https://organic-store-shop.vercel.app/>

Bansal Printing

Client Project

- Developed a responsive printing service website using React, HTML, and CSS.
- Created reusable React components for service listings, product showcases, and contact sections.
- Designed a clean and user-friendly interface with mobile-responsive layouts.
- Live Demo:** <https://bansal-printers.vercel.app/>

MY LIFE PHILOSOPHY

"Whenever you get a opportunity to do something good, do it."

EXTRA-CURRICULAR

- Participated in college technical, sports and cultural events.
- Active volleyball player with strong team work and leadership skills.
- Interested in physical fitness, team work, and sports
- Continuously learning modern web technologies and building personal projects.

SKILLS

HTML5
